

## OVERVIEW

# Get a head start on your LED project

Our financing solution accelerates your LED project with:

- No upfront cost
- Energy cost savings from day 1
- Minimized impact on your cash flow

### ***Our turn-key solution just got better!***

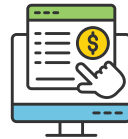

Between perfecting your cultivation environment, fine-tuning nutrients and maintaining crop health, the last thing you want to worry about is how to finance your LEDs. That's why we partnered with EnPowered to offer you the best financing solution – one that preserves your cash flow, accommodates for the best incentives, and allows you to get growing faster.

## **With Aelius LED, financing is easier than you think.**

### ***Designed to minimize impact on your cash flow***

Our financing proposals are designed to minimize your financing payments relative to your energy savings, reducing grid reliance and utility expenses instantly.

### ***We shop the best financing package***

Through EnPowered, we have access to one of the largest clean energy funder networks in North America, ensuring you get the best financing package for your project.

### ***No lien on your property***

We provide asset-backed funding which uses the LED lights itself as collateral, eliminating the risk to existing business property and assets.

### ***Streamlined financing process***

Our streamlined financing process minimizes interruptions, ensuring a smooth and hassle-free financing experience for our customers.

## Our financing option for you

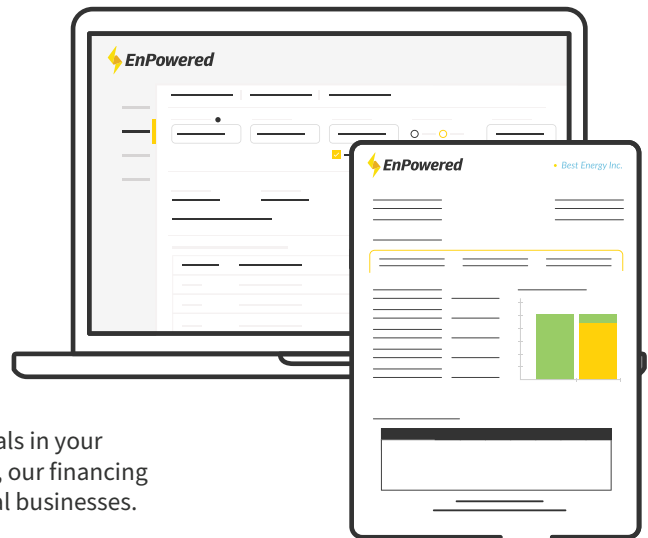

<b>Type</b>	Loan
<b>Ownership</b>	Customer owns the asset
<b>Project size supported</b>	\$25k+
<b>Term length</b>	1 - 7 years
<b>Incentives and rebates</b>	Can be fully leveraged by customer

**Get your instant financing proposal now**

### Avoid bank delays and hassles

Our accelerated financing process gets realistic and accurate proposals in your hands now. Unlike banks and other traditional financing institutions, our financing solutions are designed to meet the LED lighting needs of horticultural businesses.

We ensure a streamlined process from application to approval, so you can get started on your LED lighting project as soon as possible.
