TRUTH HOLDINGS LTD.

REACHING OUT

When Truth Holdings contacted us about upgrading to LEDs, we recommended the best solutions for their setup while also ensuring they could maximize rebate opportunities.

PHASE 01

PHASE 02

CHOOSING THE RIGHT LIGHTS

The best fit for their flower room and rebate eligibility with BC Hydro was **30 Matrx 650F** fixtures, with the total project cost at **\$25,000** including installations.

making them save **42,000 kWh** every year!

WHAT REBATES

Rebate specialists supported Truth Holdings throughout the application process.

PHASE 03

INSTALLATIONS

By completing installations before the deadlines, Truth Holdings secured **\$10,197** in rebates from BC Hydro. Thanks to the Aelius Kick-Back, **\$1,019.70** of the What Rebates fee was also covered by Aelius.

PHASE 05

PHASE 04

INCENTIVE FUNDING AGREEMENT

Truth Holdings received **\$7,844** through the EE Project and an additional **\$2,353** as the EE Project Completion Incentive Bonus.

*The agreement requires adherence to the project rules, with the possibility of repayment if the conditions are not met.

TOTAL WITH KICK-BACK

\$11,216.70 CAD
